

Clean Water Solutions

Whether at home, at the beach or at work, we all affect the condition of our local waters and it's our responsibility to help prevent pollution from reaching the ocean. The Surfrider Foundation's Clean Water Initiative provides ways you can help reduce, reuse and recycle water in your community so that we can enjoy our oceans, waves and beaches for years to come.

Whether you get involved with water quality testing, or into larger endeavors like watershed restoration, you are making a positive impact on our environment.

5 WAYS TO HELP

- ✓ Restore Our Watersheds
- ✓ Recycle Wastewater
- ✓ Create Green Streets
- ✓ Install an Ocean Friendly Garden
- ✓ Monitor Water Quality

About Us

The Surfrider Foundation is a non-profit grassroots organization dedicated to the protection and enjoyment of our oceans, waves and beaches through a powerful activist network.

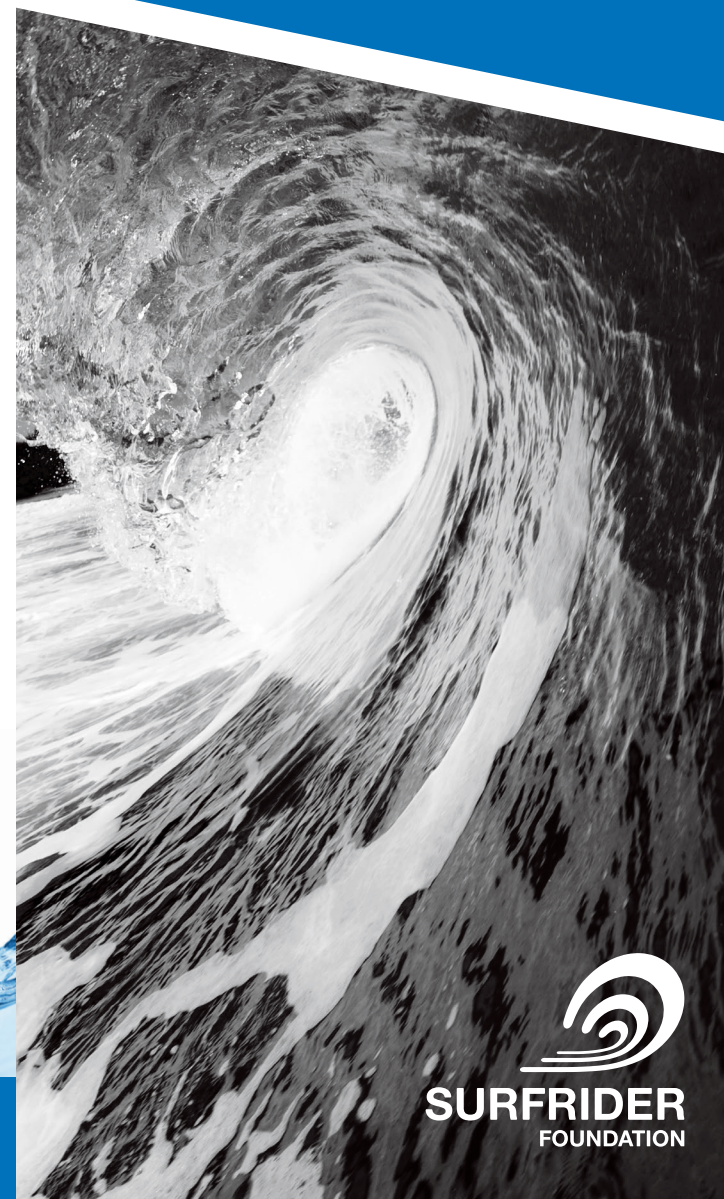

Improving and maintaining water quality in coastal watersheds and marine environments has been one of the Surfrider Foundation's top priorities since the organization was founded 30 years ago. Its Clean Water Initiative strives to understand the issues, provide solutions and raise awareness on the importance of protecting water supplies and preventing pollution along our coasts.

TAKE ACTION!

Surfrider chapters and activists are raising awareness of local water pollution problems and advocating for solutions, are you?
